

Application Form

Seminar on Monitoring and Evaluating Ecosystem-based Adaptation Interventions:

Before completing this application form, please ensure that, to the best of your knowledge, you will be available to **attend both seminar sessions** on the dates specified above. Please complete this application form in full – this will help the organizers tailor the Seminar as best possible to participants’ needs and experience. Please return the form by **24th of May 2021** to eba@giz.de. Selected participants will receive a confirmation of their slot and the exact time of the sessions by 28th of May 2021.

Applicant information

Name

Email address

Position title

Name of your organization

Organization type

- Community-based organization
- Subnational or national non-governmental organization
- International non-governmental organization
- Research/academic institution
- Private sector
- Sub-national government
- National government

Information about your work on EbA

Which best describes your involvement in EbA?

- I develop project concepts and proposals
- I support the implementation of projects in the field
- I manage projects in the field
- I oversee programmes of work
- Other (please specify)

Title of the main EbA intervention in which you are involved and in relation to which you seek guidance in the context of this seminar *(if you are not currently working on a specific EbA intervention, please skip this and the following questions and go straight to the next section)*

Main objective(s) of the intervention (please mention the climate hazards and vulnerabilities that are being addressed)

Funder of the EbA intervention

Size of project team

Primary project partners

Country/ies of implementation

Duration of project

At what stage in the project management cycle is the EbA intervention?

- Design/conceptualisation Planning of activities
- Implementation of activities Analysing, evaluating, adapting intervention
- Capturing and sharing learning

On behalf of:

Implemented by

In collaboration with:

Federal Ministry for the Environment, Nature Conservation and Nuclear Safety

of the Federal Republic of Germany

In what ecosystem type is the EbA intervention implemented?

Please list the main EbA measure/s implemented

How far have you got in the EbA intervention in terms of M&E? (select all that apply)

- Not far, we are just getting started
- We have developed a results framework
- We have developed process-based indicators (i.e. focusing on inputs and outputs of activities)
- We have developed results-based indicators (i.e. focusing on outcomes and impacts)
- We have established baseline data for our indicators
- We have collected at least one round of monitoring data to be compared against the baseline
- We have analysed the monitoring data
- We have used the M&E lessons to inform changes to the EbA intervention (i.e. adaptive management)
- We have communicated lessons from M&E to others (e.g. communities, authorities, decision-makers)

Experience with EbA and M&E

For how long have you worked on EbA?

a. 10+ years 5+ years 1-5 years Less than 1 year Never

For how long have you worked on M&E?

10+ years 5+ years 1-5 years Less than 1 year Never

If you have worked on M&E, has this been in the context of EbA interventions?

Yes No

Challenges and issues

What are the main technical and conceptual challenges you have faced in relation to monitoring and evaluating EbA interventions?

If you have been involved in developing and selecting indicators, what specific challenges have you encountered in doing so?

What type of information and guidance would you most like to get from the upcoming Seminar?

Which specific questions on EbA M&E and indicators do you have for the organisers?

The online seminars will be recorded for knowledge management purposes. We kindly ask for your agreement in this context.

I agree I disagree
